Work Experience

Backend Developer

Mileways | Jan 2022 - Present

Backend developer for the flight tracking app "Mileways".
Working on the back-end (Java), mostly REST API (Spring).
Also working with Swagger UI and the MySQL database.

Junior Application Developer

TRISA AG | Mar 2021 - Jan 2022

Created interfaces between various ERP, MES and
APS systems with the engine "Mirth Connect" (XML, EDI etc.),
mostly using JavaScript. Worked with different types of
databases (SQL Server, Oracle, PostgreSQL).

Freelance Translator & Writer

Freelance | Jul 2020 - Present

Worked as a freelance translator (English to German) and
Content Writer for numerous clients.
Examples:
- Website translations
- Writing of articles for a sports betting business
- Writing of blog posts about legal topics
